

Longitudinal Aging Study in India Biomarker Update

Past

- Past collections included:
 - Physical measures
 - Dried blood spots (DBS)
- Waves of data that have been conducted:
 - One wave (2017 – 2019)

Present

- Wave 2 planned for 2023 - 2024
- What assays are you measuring?
 - C-reactive protein (CRP)
 - Glycosylated hemoglobin (HbA1c)
 - Hemoglobin (Hb)

Future

- Renewal
 - Plan to collect physical measures and DBS info every 3 to 4 years
- New DBS-based measures for wave 2:
 - 25-OH-Vitamin D
 - Neurofilament light chain
